#### From the Green Bag.

The names of its distinguished authors are in themselves a sufficient guaranty of the excellence of this treatise. Starting with the first steps in gathering facts, it follows minutely all the proceedings through the preparation for trial, the conduct of the trial and the preparation for appeal. There are many good suggestions, much valuable advice, and numberless warnings scattered throughout the work, and the lawyer who avails himself of them will be pretty certain never to go astray in the conduct of his causes.

#### Judge Thos. A. Cooley.

"Replete with learning and with valuable suggestions. Such a book when I began my practice would have been a convenience as well as a safe guide."
